SUMMARY

Full Stack Developer with 4 years of experience building production web applications, REST APIs and admin dashboards with React/Next.js, Laravel and Node.js. Experienced across the full lifecycle: database design, queue-based background processing, browser automation with Playwright, automated testing, and Docker/CI deployment for international and local clients.

TECHNICAL SKILLS

Front-End	JavaScript, TypeScript, React, Next.js, Redux, Tailwind CSS, Blade, Vite, Bootstrap, Sass, HTML/CSS
Back-End	PHP 8, Laravel (Eloquent, Queues, Scheduler, Policies, Form Requests), Node.js, Python, FastAPI, REST APIs, Webhooks, Firebase
Databases	MySQL, PostgreSQL, Prisma ORM, Redis
Testing & DevOps	PHPUnit, Jest, Pytest, Playwright, Docker, GitHub Actions CI/CD, AWS, Vercel, Railway
Tools	Git/GitHub, Postman, Swagger, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Web Developer — BixoSoft 2023 – Present

- Developed responsive React/Next.js interfaces and secure REST APIs for 8+ client products; optimized MySQL/PostgreSQL queries to cut page load times by up to 40%.
- Built backend services for an event-driven B2B outreach platform using FastAPI, PostgreSQL/Prisma and Redis queues.
- Integrated multi-channel lead capture (forms, booking, chat, calls) into a Laravel client site, connected to HubSpot through its CRM v3 API.
- Containerized services with Docker and set up GitHub Actions CI/CD pipelines for automated testing and deployment.
- Collaborated with UI/UX and back-end teams in Agile/Scrum: sprint planning, code reviews and regular release cycles.

Freelance Full Stack Developer — Self-Employed 2022 – Present (part-time)

- Delivered end-to-end web solutions for 15+ international and local clients, from requirement analysis through deployment and maintenance.
- Built custom admin panels, CRM systems, e-commerce platforms and dashboards with secure authentication, role-based access control and payment-gateway integrations.
- Improved application speed, SEO and UX; deployed and maintained apps on cloud and shared hosting.

KEY PROJECTS

TagSentry — Tracking & Consent Compliance Auditor

Laravel 12 · PHP 8.2 · Node.js · Playwright · MySQL · Tailwind CSS 4 · Vite · PHPUnit

- Built a SaaS-style web app that audits websites for cookie-consent compliance (GDPR/UK PECR, CCPA/GPC, Google Consent Mode v2) by loading each site three times in headless Chromium: pre-consent, post-accept and with GPC enabled.
- Designed a rule-based detection engine with 7 compliance checks and a 48-rule vendor fingerprint database.
- Implemented an async queue pipeline (scan → report → PDF) with hard timeouts, failure handling and a scheduled reaper for stalled jobs; agency-branded PDF reports rendered via Playwright.
- Built a multi-user dashboard with auth, alerts feed, paginated tracker inventory and policy-based authorization; covered by ~47 PHPUnit feature tests.

Ad-to-Revenue Attribution System — BixoSoft client Sep – Oct 2026

Laravel · HubSpot API · Make.com · GA4 · GTM · Looker Studio

- Built lead attribution for a home-services business, tracking leads from ad click (gclid/fbclid/UTMs) through to CRM deals and a Looker Studio revenue dashboard.

Ohana Africa — Bilingual (French/English) group-savings platform with custom dashboard components and role-based access.

Salveowell — Admin panel and POS order-management system with RBAC and live AJAX order tracking.

AI Poem Generator — React app that generates custom poems from user prompts via LLM API integration.

10+ more projects — EduFlow LMS, SQT Mart e-commerce, Trading Platform, Moody Store. Case studies at kanwalbilal.vercel.app

EDUCATION

B.Sc. Information Technology (BS IT) — Government College University Faisalabad 2018 – 2022
